Inclusion on Purpose Ruchika Tulshyan 2022-03-01 How organizations can foster diversity, equity, and inclusion: taking action to address and prevent workplace bias while centering women of color. Few would disagree that inclusion is both the right thing to do and good for business. Then why are we so terrible at it? If we believe in the morality and the profitability of including people of diverse and underestimated backgrounds in the workplace, why don’t

we do it? Because, explains Ruchika Tulshyan in this eye-opening book, we don’t realize that inclusion takes awareness, intention, and regular practice. Inclusion doesn’t just happen; we have to work at it. Tulshyan presents inclusion best practices, showing how leaders and organizations can meaningfully promote inclusion and diversity. Tulshyan centers the workplace experience of women of color, who are subject to both gender and racial bias. It is at the intersection of gender and race, she shows, that we discover the kind of inclusion policies that benefit all. Tulshyan debunks the idea of the “level playing field” and explains how leaders and organizations can use their privilege for good by identifying and exposing bias, knowing that they typically have less to lose in speaking up than a woman of color does. She explains why “leaning in” doesn’t work—and dismantling structural bias does; warns against hiring for “culture fit,” arguing for “culture add” instead; and emphasizes the importance of psychological safety in the workplace—you need to know that your organization has your back. With this important book, Tulshyan shows us how we can make progress toward inclusion and diversity—and we must start now. *Taking the Stage* Judith Humphrey 2014-10-13 Many women today wonder: what will it take to get that seat at the boardroom table? Part of the Bully Free Kids™ line **It's about Damn Time** Arlan Hamilton 2022-02-15 "From a black, gay woman who broke into the boys' club of Silicon Valley comes an empowering guide to finding your voice, working your way into any room you want to be in, and achieving your own dreams. In 2015, Arlan Hamilton was on food stamps and sleeping on the floor of the San Francisco airport, with nothing but an old laptop and a dream of breaking into the venture capital business. She couldn't understand why people starting companies all looked the same (white and male), and she wanted the chance to invest in the ideas and people who didn't conform to this image of how a founder is supposed to look. Hamilton had no contacts or network in Silicon Valley, no background in finance-not even a college degree. What she did have was fierce determination and the will to succeed. As much as we wish it weren't so, we still live in a world where being underrepresented often means being underestimated. But as someone who makes her living investing in high-potential founders who also happen to be female, LGBTQ, or people of color, Hamilton understands that being undervalued simply means that a big upside exists. Because even if you have to work twice as hard to get to the starting line, she says, once you are on a level playing field, you will sprint ahead. Despite what society would have you believe, Hamilton argues, a privileged background, an influential network, and a fancy college degree are not prerequisites for success. Here she shares the hard-won wisdom she's picked up on her remarkable journey from food-stamp recipient to venture capitalist, with lessons like "The Best Music Comes from the Worst Breakups," "Let Someone Shorter Stand in Front of You," "The Dangers of Hustle Porn," and "Don't Let Anyone Drink Your Diet Coke." Along the way, she inspires us all to defy other people's expectations and to become the role models we've been looking for"--

Speak Up, Speak Out! Tonya Bolden 2022-01-04 From award-winning author Tonya Bolden comes a biography of the first Black woman elected to the U.S. House of Representatives and the first Black woman to run for president with a major political party: Shirley Chisholm. Before there was Barack Obama, before there was Kamala Harris, there was Fighting Shirley Chisholm. A daughter of Barbadian immigrants, Chisholm developed her political chops in Brooklyn in the 1950s and went on to become the first Black woman elected to the U.S. House of Representatives. This "pepper pot," as she was known, was not afraid to speak up for what she thought was right. While fighting for a better life for her constituents in New York's 12th Congressional District, Chisholm routinely fought against sexism and racism in her own life and defied the norms of the time. As the first Black woman in the House and the first Black woman to seek the presidential nomination from a major political party, Shirley Chisholm laid the groundwork for those who would come after her. Extensively researched and reviewed by experts, this inspiring biography traces Chisholm's journey from her childhood in a small flat in Brooklyn where she read books with her sisters to Brooklyn College where she got her first taste of politics. Readers will cheer Chisholm on to victory from the campaign trail to the hallowed halls of the U.S. Capitol, where she fought for fair wages, equal rights, and an end to the Vietnam War. And while the presidential campaign trail in 1972 did not end in victory, Shirley Chisholm shows us how you can change a country when you speak up and speak out.

Impromptu Judith Humphrey 2017-11-27 Be Prepared to Lead in the Moment: Assess, think, and respond on-the-spot Impromptu shows leaders how to think on their feet and respond eloquently in every situation. Never have there been so many opportunities to inspire and influence in everyday situations -- elevator chats, corridor conversations, networking gatherings, meetings, and ceremonial events. Indeed, today the most iconic leadership moments are spontaneous, spur-of-the-moment events that reveal the inner workings of the leader's mind. When these impromptu opportunities arise, leaders must be able to listen, think, and respond within seconds. They don't read a script from a page, they convey the narrative that is already in their mind. They can tailor a message—in a meeting, in the corridor, or in a tweet—to influence and inspire any audience. Those who shine in that moment are remembered for their leadership. Those who stumble are remembered for their gaffes, mixed messages, or insensitivity. Nobody remembers the leaders who retreat to their office, formulate a strategic plan, and distribute a memo the following week. Guided by her entrepreneurial success as founder of The Humphrey Group and her firm's work with tens of thousands of leaders over the past 30 years, Judith Humphrey makes clear the importance of preparing to be spontaneous -- as counterintuitive as that may sound! Drawing upon the best impromptu moments from the Greeks to the present, the book looks at every aspect of impromptu speaking. You will learn how to: Think like an impromptu leader Quickly read an audience of one or a thousand Collect your thoughts and craft a persuasive message 'Script' yourself within seconds for any occasion Avoid 'um's' and 'ah's' and use the right words at the right time Discover improv techniques that will enable you to shine Deliver your message with clarity, confidence, and conviction. The ability to speak on the spot is often seen as an innate gift, a talent of 'natural-born' leaders. The truth is, it's a skill that can be learned—a skill that is quickly becoming a must-have for anyone in a leadership position. Impromptu provides clear, actionable guidance to help you reach your full leadership potential. It will enable you to influence and inspire followers on the many 'small stages' that define our daily lives.

Speak Up! Adora Svitak 2020-02-25 Speak Up! is a joyful celebration of 45 speeches by children and teenagers who have stood up for causes they passionately believe in and challenged adults in power to take note. This collection is testament to the hopefulness and spirit of the next generation, and the positive belief that we can, and should, act to protect the things we love. From ground-breaking scientific inventions to pleas for the environment, anti-war speeches to incredible testimony of lived experiences, the speeches collected here demonstrate the profound wisdom of youth and why it is important to speak up and out on what concerns us. ‘A society that cuts itself off from its youth severs its own lifeline; it is condemned to bleed to death.’ - Kofi Annan **Break These Rules** Luke Reynolds 2013-09-01 “This book actually breaks the rules just by existing. This much sheer coolness should not be allowed in one volume!” —Jordan Sonnenblick, bestselling author of Drums, Girls, and Dangerous Pie In Break These Rules, 35 favorite middle grades and young adult authors—including Kathryn Erskine, A. S. King, Matthew Quick, Sara Zarr, Gary Schmidt, and many others—speak directly to their readers and advise them to break the boundaries of conformity. In moving, inspiring, often funny essays they take on many of the powerfully inhibiting, often unspoken “rules” of adolescence, such as Boys shouldn’t be gentle, kind, and caring; Thou shalt wear Abercrombie & Fitch to fit in; You must be a jock or a nerd—you can’t be both; and Girls should “act like girls.” It is often through reading fiction that kids start to question such restrictions, so who better to speak to them directly than their favorite novelists? The book is focused on encouraging students to break rules in their own lives—a prospect many teens and tweens will find thrilling and fresh. Luke Reynolds has taught middle and high school English in Connecticut and Massachusetts, as well as composition at Northern Arizona University. He is the author of A Call to Creativity and Keep Calm and Query On.

How to Get Involved, Speak Out, and Win in a World on Fire A society that actively combats racism, treats climate change as a serious threat, and ensures that all people have a living wage and a decent life for themselves and their families is not a progressive pipe dream. Victories are being won every day, all over the country. But they didn't happen just by clicking “donate” on a website. Gordon Whitman says that fundamental change demands forming the kind of face-to-face relationships that have sustained every social movement in history. For two decades, Whitman has been working with PICO National Network to equip tens of thousands to fight racial discrimination and economic injustice. He brings that experience to this book, describing five kinds of conversations that enable people to create organizations that can successfully overcome the forces of oppression and reaction. The first conversation to have is with ourselves, to make sure we’re clear about our purpose and in it for the long haul. Then we need to share the personal story of how we came to this point with others—there is no more powerful way to connect. They in turn will share their stories, and then we can have the third conversation, about becoming a team. This team reaches out to people they know to talk about their concerns and priorities, building a broad base of supporters.. Then, with our base at our back, we can have that final conversation, directly confronting the powers that be. Of course, this isn't as simple as it sounds. Appropriately enough, Whitman uses stories, his own and others, to illustrate how best to handle these conversations and to show how they work together to build a movement. We can't just sit on the sidelines sharing angry social media posts or signing online petitions. We need to get directly involved, reach out, knock on doors, and bring our whole selves to the table if the changes our country so desperately need are ever going to come.

Speak Laurie Halse Anderson 2011-05-10 The extraordinary, groundbreaking novel from Laurie Halse Anderson, with more than 2.5 million copies sold! The first ten lies they tell you in high school. "Speak up for yourself--we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless, outcast, because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. As time passes, she becomes increasingly isolated and practically stops talking altogether. Only her art class offers any solace, and it is through her work on an art project that she is finally able to face what really happened at that terrible party: she was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. Her healing process has just begun when she has another violent encounter with him. But this time Melinda fights back, refuses to be silent, and thereby achieves a measure of vindication. In Laurie Halse Anderson's powerful novel, an utterly believable heroine with a bitterly ironic voice delivers a blow to the hypocritical world of high school. She
