The Book of Collateral Damage Sinan Antoon 2019-05-28
Sinan Antoon returns to the Iraq war in a poetic and provocative tribute to reclaiming memory Widely-celebrated author Sinan Antoon's fourth and most sophisticated novel follows Nameer, a young Iraqi scholar earning his doctorate at Harvard, who is hired by filmmakers to help document the devastation of the 2003 invasion of Iraq. During the excursion, Nameer ventures to al-Mutanabbi street in Baghdad, famed for its bookshops, and encounters Wadood, an eccentric bookseller who is trying to catalogue everything destroyed by war, from objects, buildings, books and manuscripts, flora and fauna, to humans. Entrusted with the catalogue and obsessed with Wadood's project, Nameer finds life in New York movingly intertwined with fragments from his homeland's past and its present-- destroyed letters, verses, epigraphs, and anecdotes--in this stylistically ambitious panorama of the wreckage of war and the power of memory.

The City of Words Alberto Manguel 2008 'And yet stories, even the best and truest, can't save us from our own folly. Stories can't protect us from suffering and error, from natural and artificial catastrophes, from our own suicidal greed. The only thing they can do is ... offer consolation for suffering and words to name our experience. Stories can tell us who we are ... and suggest ways of imagining a future that, without calling for comfortable happy endings, may offer us ways of remaining alive, together, on this much-abused earth.' Based on Canada's 2007 CBC Massey Lectures (to be broadcast in Australia by ABC Radio National in April 2008), Alberto Manguel's *The City of Words* takes a fresh look at the rise of violent intolerance in our societies. We strive to build societies with sets of values all citizens can agree on. But something has gone wrong- race riots in France, political murder in the Netherlands, bombings in Britain and Bali - are these symptoms of a multicultural experiment gone awry? Why is it so difficult for us to live together when the alternatives are demonstrably horrifying? With his trademark wit and erudition, Alberto Manguel suggests a fresh approach- we should look at what visionaries, poets, novelists, essayists and filmmakers have to say about building societies. Perhaps the stories we tell hold secret keys to the human heart. From Cassandra to Jack London, the Epic of Gilgamesh to the computer Hal in 2001- A Space Odyssey, Don Quixote to Atanarjuat- The Fast Runner, Manguel draws fascinating and revelatory parallels between the personal and political realities of our present-day world and those of myth, legend and story.

A Reading Diary Alberto Manguel 2006 While traveling, Manguel was struck by how the novel he was reading

seemed to reflect the social chaos of the world he was living in. He decided to keep a diary of these moments, reading a book a month and recording his observations, which provides an enthralling adventure in literature and life.

The Library Stuart Kells 2018-04-10 ""Excellent . . . Tracks the history of that greatest of all cultural institutions." -The Washington Post Libraries are much more than mere collections of volumes. The best are magical, fabled places whose fame has become part of the cultural wealth they are designed to preserve. Some still exist today; some are lost, like those of Herculaneum and Alexandria; some have been sold or dispersed; and some never existed, such as those libraries imagined by J.R.R. Tolkien, Umberto Eco, and Jorge Luis Borges, among others. Ancient libraries, grand baroque libraries, scientific libraries, memorial libraries, personal libraries, clandestine libraries: Stuart Kells tells the stories of their creators, their prizes, their secrets, and their fate. To research this book, Kells traveled around the world with his young family like modern-day "Library Tourists." Kells discovered that all the world's libraries are connected in beautiful and complex ways, that in the history of libraries, fascinating patterns are created and repeated over centuries. More important, he learned that stories about libraries are stories about people, containing every possible human drama. *The Library* is a fascinating and engaging exploration of libraries as places of beauty and wonder. It's a celebration of books as objects, a celebration of the anthropology and physicality of books and bookish space, and an account of the human side of these hallowed spaces by a leading and passionate bibliophile.

The Book of Whispers Varujan Vosganian 2017-01-01 A harrowing account of the Armenian Genocide documented through the stories of those who managed to survive and descendants who refuse to forget The grandchild of Armenians who escaped widespread massacres during the Ottoman Empire a century ago, Varujan Vosganian grew up in Romania hearing firsthand accounts of those who had witnessed horrific killings, burned villages, and massive deportations. In this moving chronicle of the Armenian people's almost unimaginable tragedy, the author transforms true events into a work of fiction firmly grounded in survivor testimonies and historical documentation. Across Syrian desert refugee camps, Russian tundra, and Romanian villages, the book chronicles individual lives destroyed by ideological and authoritarian oppression. But this novel tells an even wider human story. Evocative of all the great sufferings that afflicted the twentieth century--world wars, concentration camps, common graves, statelessness, and others--this book belongs to all peoples whose voices have been lost. Hailed for its documentary value and sensitive authenticity, Vosganian's work has become an international phenomenon.

The Traveler, the Tower, and the Worm Alberto Manguel

2013-06-21 Alberto Manguel examines metaphors of readers and reading from literatures across centuries and the globe, from the ancient epic Gilgamesh to the World Wide Web, from the adventures of Ulysses to the tragedy of Emma Bovary, and he considers how these metaphors reflect the cultures that invent them.

The Solitudes Luis de Gongora 2011-06-28 An epic masterpiece of world literature, in a magnificent new translation by one of the most acclaimed translators of our time. A towering figure of the Renaissance, Luis de Góngora pioneered poetic forms so radically different from the dominant aesthetic of his time that he was derided as "the Prince of Darkness." *The Solitudes*, his magnum opus, is an intoxicatingly lush novel-in-verse that follows the wanderings of a shipwrecked man who has been spurned by his lover. Wrenched from civilization and its attendant madness, the desolate hero is transported into a natural world that is at once menacing and sublime. In this stunning edition Edith Grossman captures the breathtaking beauty of a work that represents one of the high points of poetic achievement in any language.

The Library at Night Alberto Manguel 2011-07-27 In the tradition of *A History of Reading*, this book is an account of Manguel's astonishment at the variety, beauty and persistence of our efforts to shape the world and our lives, most notably through something almost as old as reading itself: libraries. *The Library at Night* begins with the design and construction of Alberto Manguel's own library at his house in western France – a process that raises puzzling questions about his past and his reading habits, as well as broader ones about the nature of categories, catalogues, architecture and identity. Thematically organized and beautifully illustrated, this book considers libraries as treasure troves and architectural spaces; it looks on them as autobiographies of their owners and as statements of national identity. It examines small personal libraries

and libraries that started as philanthropic ventures, and analyzes the unending promise – and defects – of virtual ones. It compares different methods of categorization (and what they imply) and libraries that have built up by chance as opposed to by conscious direction. In part this is because this is about the library at night, not during the day: this book takes in what happens after the lights go out, when the world is sleeping, when books become the rightful owners of the library and the reader is the interloper. Then all daytime order is upended: one book calls to another across the shelves, and new alliances are created across time and space. And so, as well as the best design for a reading room and the makeup of Robinson Crusoe's library, this book dwells on more "nocturnal" subjects: fictional libraries like those carried by Count Dracula and Frankenstein's monster; shadow libraries of lost and censored books; imaginary libraries of books not yet written. *The Library at Night* is a fascinating voyage through the mind of one of our most beloved men of letters. It is an invitation into his memory and vast knowledge of books and civilizations, and throughout – though mostly implicitly – it is also a passionate defence of literacy, of the unique pleasures of reading, of the importance of the book. As much as anything else, *The Library at Night* reminds us of what a library stands for: the possibility of illumination, of a better path for our society and for us as individuals. That hope too, at the close, is replaced by something that fits this personal and eclectic book even better: something more fragile, and evanescent than illumination, though just as important.

Aseroë François Dominique 2020-09-15 "A singular novel." –Lydia Davis, author of *Can't and Won't* and *Essays One* "An exhilarating adventure!" –Alberto Manguel, author of *The Library at Night* and *Fabulous Monsters*

"Extraordinary. . . . Brings to mind the great mushroom scenes of the film *Phantom Thread*. How not to be aroused by this whopping treat of verbal virtuosity?" –Mary Ann Caws, author of *The Modern Art Cookbook* *Aseroë*, the mushroom, as object of fascination. First observed in Tasmania and South Africa, it appeared suddenly in France around 1920. It is characterized by its stench and, at maturity, its grotesque beauty. *Aseroë*, the word, as incantation. Can a word create a world? It does, here. François Dominique is a conjurer, who through verbal sorcery unleashes the full force of language, while evoking the essential rupture between the word and the object. An impossible endeavor, perhaps, but one at the very heart of literature. The narrator of *Aseroë* wanders medieval streets and dense forests, portrait galleries, and rare bookshops. As he explores the frontiers of language, the boundaries of science, art, and alchemy melt away, and the mundane is overtaken by the bizarre. Inhabited by creatures born in darkness, both terrible and alluring, *Aseroë* is ultimately a meditation on memory and forgetting, creation, and oblivion. François Dominique is an acclaimed novelist, essayist, poet, and translator. He has received the Burgundy Prize for Literature and is the author of eight novels, including *Aseroë* and *Solène*, winner of the Wepler Award and Prix littéraire Charles Brisset. He has translated the poetry of Louis Zukofsky and Rainer Maria Rilke and is the cofounder of the publishing house Ulysses-Fin-de-Siècle.

Tyrant Banderas Ramon del Valle-Inclan 2012-08-14 An NYRB Classics Original The first great twentieth-century novel of dictatorship, and the avowed inspiration for García Márquez's *The Autumn of the Patriarch* and Roa Bastos's *I, the Supreme*, *Tyrant Banderas* is a dark and dazzling portrayal of a mythical Latin American republic in the grip of a monster. Ramón del Valle-Inclán, one of the masters of Spanish modernism, combines the splintered points of view of a cubist painting with the campy excesses of 19th-century serial fiction to paint

an astonishing picture of a ruthless tyrant facing armed revolt. It is the Day of the Dead, and revolution has broken out, creating mayhem from Baby Roach's Cathouse to the Harris Circus to the deep jungle of Tico Maipú. Tyrant Banderas steps forth, assuring all that he is in favor of freedom of assembly and democratic opposition. Meanwhile, his secret police lock up, torture, and execute students and Indian peasants in a sinister castle by the sea where even the sharks have tired of a diet of revolutionary flesh. Then the opposition strikes back. They besiege the dictator's citadel, hoping to bring justice to a downtrodden, starving populace. Peter Bush's new translation of Valle-Inclán's seminal novel, the first into English since 1929, reveals a writer whose tragic sense of humor is as memorably grotesque and disturbing as Goya's in his *The Disasters of War*.

A Reader on Reading Alberto Manguel 2010-03-02 In this major collection of his essays, Alberto Manguel, whom George Steiner has called "the Casanova of reading," argues that the activity of reading, in its broadest sense, defines our species. "We come into the world intent on finding narrative in everything," writes Manguel, "landscape, the skies, the faces of others, the images and words that our species create." Reading our own lives and those of others, reading the societies we live in and those that lie beyond our borders, reading the worlds that lie between the covers of a book are the essence of *A Reader on Reading*. The thirty-nine essays in this volume explore the crafts of reading and writing, the identity granted to us by literature, the far-reaching shadow of Jorge Luis Borges, to whom Manguel read as a young man, and the links between politics and books and between books and our bodies. The powers of censorship and intellectual curiosity, the art of translation, and those "numinous memory palaces we call libraries" also figure in this remarkable collection. For Manguel and his readers, words, in spite of everything, lend coherence to the world and offer us "a few safe places, as real as paper and as bracing as ink," to grant us room and board in our passage.

Mothers and Daughters Alberto Manguel 1998-04 Turning his inspired anthologizing skills to a subject all readers can relate to, celebrated writer and editor Alberto Manguel offers an exceptional collection of complete short stories about the relationship between mothers and daughters. A Case of Curiosities Allen Kurzweil 2001-08-10 This tale of an ambitious inventor in France as the Revolution looms is "brilliantly playful . . . full of lore and lewdness" (Chicago Tribune). "A portrait of a young mechanical genius in 18th-century France, delivered along with a gallimaufry of odd and intriguing facts and a rich, lusty picture of society in that time and place." —Publishers Weekly In France, on the eve of the Revolution, a young man named Claude Page sets out to become the most ingenious and daring inventor of his time. Over the course of a career filled with violence and passion, Claude learns the arts of enameling and watchmaking from an irascible, defrocked abbé, then apprentices himself to a pornographic bookseller and applies his erotic erudition to the seduction of the wife of an impotent wigmaker. But it is Claude's greatest device—a talking mechanical head—that both crowns his career and leads to an execution as tragic as that of Marie Antoinette, and far more bizarre. "Like a joint effort by Henry Fielding and John Barth" (Chicago Tribune), this "captivating novel" (San Francisco Chronicle) marked the debut of one of the finest literary artists of our time. "A Case of Curiosities . . . really is brilliant. Also witty, learned, ingenious, sly, and bawdy." —Entertainment Weekly "What John Fowles did for the 19th century with *The French Lieutenant's Woman* and Umberto Eco did for the 14th with *The Name of*

the Rose . . . Kurzweil now does for the late 18th century." —San Francisco Chronicle

Shadow Libraries Joe Karaganis 2018-05-04 How students get the materials they need as opportunities for higher education expand but funding shrinks. From the top down, *Shadow Libraries* explores the institutions that shape the provision of educational materials, from the formal sector of universities and publishers to the broadly informal ones organized by faculty, copy shops, student unions, and students themselves. It looks at the history of policy battles over access to education in the post-World War II era and at the narrower versions that have played out in relation to research and textbooks, from library policies to book subsidies to, more recently, the several "open" publication models that have emerged in the higher education sector. From the bottom up, *Shadow Libraries* explores how, simply, students get the materials they need. It maps the ubiquitous practice of photocopying and what are—in many cases—the more marginal ones of buying books, visiting libraries, and downloading from unauthorized sources. It looks at the informal networks that emerge in many contexts to share materials, from face-to-face student networks to Facebook groups, and at the processes that lead to the consolidation of some of those efforts into more organized archives that circulate offline and sometimes online—the shadow libraries of the title. If Alexandra Elbakyan's Sci-Hub is the largest of these efforts to date, the more characteristic part of her story is the prologue: the personal struggle to participate in global scientific and educational communities, and the recourse to a wide array of ad hoc strategies and networks when formal, authorized means are lacking. If Elbakyan's story has struck a chord, it is in part because it brings this contradiction in the academic project into sharp relief—universalist in principle and unequal in practice. *Shadow Libraries* is a study of that tension in the digital era. The Library at Night Alberto Manguel 2008-04-01 Inspired by the process of creating a library for his 15th-century home near the Loire, in France, Manguel, the acclaimed writer on books and reading, has taken up the subject of libraries in this captivating meditation on their meaning and significance.

A History of Reading Alberto Manguel 2014-08-26 At one magical instant in your early childhood, the page of a book—that string of confused, alien ciphers—shivered into meaning, and at that moment, whole universes opened. You became, irrevocably, a reader. Noted essayist and editor Alberto Manguel moves from this essential moment to explore the six-thousand-year-old conversation between words and that hero without whom the book would be a lifeless object: the reader. Manguel brilliantly covers reading as seduction, as rebellion, and as obsession and goes on to trace the quirky and fascinating history of the reader's progress from clay tablet to scroll, codex to CD-ROM.

Packing My Library Alberto Manguel 2018-03-20 A best-selling author and world-renowned bibliophile meditates on his vast personal library and champions the vital role of all libraries In June 2015 Alberto Manguel prepared to leave his centuries-old village home in France's Loire Valley and reestablish himself in a one-bedroom apartment on Manhattan's Upper West Side.

Packing up his enormous, 35,000+ volume personal library, choosing which books to keep, store, or cast out, Manguel found himself in deep reverie on the nature of relationships between books and readers, books and collectors, order and disorder, memory and reading. In this poignant and personal reevaluation of his life as a reader, the author illuminates the highly personal art of reading and affirms the vital role of public libraries. Manguel's musings range widely, from delightful reflections on the idiosyncrasies of book lovers to deeper analyses of historic and catastrophic book events, including the burning of ancient Alexandria's library and contemporary library lootings at the hands of ISIS. With insight and passion, the author underscores the universal centrality of books and their unique importance to a democratic, civilized, and engaged society.

A History of Reading Alberto Manguel 2012-11-13 In this marvelous book, acclaimed around the world, Alberto Manguel takes us on a fascinating exploration of what it means to be a reader of books. A History of Reading is a brilliant reminder of why we cherish the act of reading—despite distractions throughout the ages, from the Inquisition to the lures of cyberspace. He shows us what happens when we read; who we become; and how reading teaches us how to live. He reminds us that we live in books as well as among them—how we find our own stories in books, and traces of our lives. He shows us how our reading habits have developed over the centuries, and how, ever since humans first transcribed their thoughts and deeds on clay and papyrus, the act of reading is itself a part of being human. Alberto Manguel is a lover of reading, and he brings a lover's delight and enthusiasm to his history of reading. His stories take us across a breathtaking range of time and experiences. From the invention of the reader to Pliny the Younger's first lip-synch in history; from the moment when Alexander the Great's conquering army watched, amazed, as their captain read a letter from his mother—but silently—to himself!—to reading clubs in medieval France; from the Great Camel Library of the Grand Vizir of Persia, who trained his camels to walk in alphabetical order, to the ancient delights of bedroom reading and the modern horrors of book burning in Nazi Germany; from cuneiform and codexes to the invention of printing and to Penguins; from the creation of eyeglasses to the hypnotics of hypertext—the story of reading is laid open here for our pleasure.

The Prince of the Skies Antonio Iturbe 2021-11-02 A gripping narrative of friendship and exploration, and an homage to Antoine de Saint-Exupéry, an unforgettable writer who touched the lives of millions of readers, and who was able to see the world through the eyes of a child. In the 1920s, long before he wrote *The Little Prince*, Antoine de Saint-Exupéry was an accomplished pilot. Along with Jean Mermoz and Henri Guillaumet, he was chosen to pioneer new mail routes across the globe. No distance was too far and no mountain too high—each letter had to reach its destination. The three friends soared through the air, while back on solid ground, they dealt with a world torn apart by wars and political factions.

The Jungle Books Rudyard Kipling 1998-06-18 The Jungle Books can be regarded as classic stories told by an adult to children. But they also constitute a complex literary work of art in which the whole of Kipling's philosophy of life is expressed in miniature. They are best known for the 'Mowgli' stories; the tale of a baby abandoned and brought up by wolves, educated in the ways and secrets of the jungle by Kaa the python, Baloo the bear, and Bagheera the black panther. The stories, a mixture of fantasy, myth, and magic, are underpinned by Kipling's abiding preoccupation with the theme of self-discovery, and the nature of the 'Law'. ABOUT THE SERIES: For over 100 years Oxford World's Classics has

Quartet in Autumn Barbara Pym 2015-10-08 With an introduction by Alexander McCall Smith, author of *The No. 1 Ladies' Detective Agency* series. One did not drink sherry before the evening, just as one did not read a novel in the morning. In 1970s London, Edwin, Norman, Letty and Marcia work in the same office and suffer the same problem – loneliness. Lovingly and with delightful humour, Barbara Pym conducts us through their day-to-day existence: their preoccupations, their irritations, their judgements, and – perhaps most keenly felt – their worries about having somehow missed out on life as post-war Britain shifted around them. Deliciously, blackly funny and full of obstinate optimism, *Quartet in Autumn* shows Barbara Pym's sensitive artistry at its most sparkling. Its world is both extraordinary and familiar, revealing the eccentricities of everyday life.

Reading Pictures Alberto Manguel 2002-10-15 This profoundly illuminating, entertaining book could well change the way we "read" the visual world around us, and certainly help open our eyes and minds to its astonishing riches. The language in which we speak about art has become steadily more abstruse, a jargon that only art critics and con-artists can understand, though for thousands of years this was not the case. Today, we live in a kaleidoscopic new world of images: Is there a vocabulary we can learn in order to read these images? Is there something we can do so as not to remain passive when we flip through an illustrated book, or download images on a screen? Are there ways in which we can "read" the stories within paintings, monuments, buildings and sculptures? We say "every picture tells a story" - but does it? Taking a handful of extraordinary images - photographed, painted, built, sculpted - Alberto Manguel explores how each one attempts to tell a story that we, the viewer, must decipher or invent. *A History of Love and Hate* is not about art history or theory - it is about the astonishing pleasures and surprises of stories.

Going Ashore Mavis Gallant 2010-04-06 One of the world's great short-story writers emerges with a selection of stories from her past, a trove of hidden treasures. Mavis Gallant moved from Montreal to Paris in 1950 to write short stories for a living. Since then she has continued to write, producing a remarkable body of work. In 1993, Robertson Davies said: "She has written many short stories. My calculation suggests that she has

written in this form at least the equivalent of twenty novels." Many of her stories have been anthologized, notably in the 1996 classic *Selected Stories*, from which hundreds of pages had to be cut for reasons of length. These "embarrassment of riches" stories are restored in this collection, along with many other neglected treasures from her past. Arranged in the order in which they appeared, they shed light on people living through most of the second half of the 20th century. More important, they show one of the greatest short-story writers of our time at work, delineating a series of worlds with dramatic flair, dazzlingly precise language, a wicked wit, and a vivid understanding of the human condition. Even Mavis Gallant's most devoted admirers will find many stories here that they do not know. For newer admirers, this will prove to be a wonderful source of constant pleasure, leaving only the great mystery: How does she do it?

Into The Looking-Glass Wood Alberto Manguel 2011-02-04
By the award-winning author of *A History of Reading* "For me, words on a page give the world coherence--Words tell us what we, as a society, believe the world to be--I believe there is an ethic of reading--a commitment that is both political and private in the act of turning the pages. And I believe that sometimes, beyond the author's intentions and beyond the reader's hopes, a book can make us better and wiser." Through personal stories and literary reflections, in a style rich in humour and gentle erudition, Manguel leads us, the readers, to reflect upon the pleasures and responsibilities of reading, and the links that exist between the world we live in, and the words we live amongst. *Into the Looking-Glass Wood* is a voyage into the subversive heart of words - a voyage fired by the author's humanity and extraordinary breadth of vision.

The Library at Night Alberto Manguel 2005-09

All Men Are Liars Alberto Manguel 2012-06-05
In this gorgeously imagined novel, a journalist interviews those who knew—or thought they knew—Alejandro Bevilacqua, a brilliant, infuriatingly elusive South American writer and author of the masterpiece, *In Praise of Lying*. But the accounts of those in his circle of friends, lovers, and enemies become increasingly contradictory, murky, and suspect. Is everyone lying, or just telling their own subjective version of the truth? As the literary investigation unfolds and a chorus of Bevilacqua's peers piece together the fractured reality of his life, thirty years after his death, only the reader holds the power of final judgment. In *All Men Are Liars*, Alberto Manguel pays homage to literature's inventions and explores whether we can ever truly know someone, and the question of how, by whom, and for what, we ourselves will be remembered.

Curiosity Alberto Manguel 2015-01-01
An eclectic history of human curiosity, a great feast of ideas, and a memoir of a reading life from an internationally celebrated reader and thinker *Curiosity* has been seen through the ages as the impulse that drives our knowledge forward and the temptation that leads us toward dangerous and forbidden waters. The question "Why?" has appeared under a multiplicity of guises and in vastly different contexts throughout the chapters of human history. Why does evil exist? What is beauty? How does language inform us? What defines our identity? What is our responsibility to the world? In Alberto Manguel's most personal book to date, the author tracks his own life of curiosity through the reading that has mapped his way. Manguel chooses as his guides a selection of writers who sparked his imagination. He dedicates each chapter to a single thinker, scientist, artist, or other figure who demonstrated in a fresh way how to ask "Why?" Leading us through a full gallery of inquisitives, among them Thomas Aquinas, David Hume, Lewis Carroll, Rachel Carson, Socrates, and, most importantly, Dante, Manguel affirms how deeply connected our curiosity is to the readings that most astonish us, and how essential to the soaring of our own imaginations.
